

ENDING ENROLLMENT

Enrollments are considered active every month until you have notified the office of your intent to end your child's enrollment. Payment of the monthly tuition for any month serves as intent of your child's attendance for the full month.

Please notify the office before the first of the month when you wish to end enrollment to ensure that your child is removed from the attendance roster and that no further tuition charges are incurred.

Partial month refunds are not offered for enrollments that are ended mid-month.

If intent to end enrollment is received after the first of the month you will be responsible for tuition incurred through the date of notification.
